

Masooma Shakir is an architect, urban researcher and academic. Her work explores interdisciplinary interactions on urban and spatial issues in relation to socio-cultural and environmental parameters. She has explored cultural heritage and its contextual associations within particular case studies in the region of Sindh. She has been involved in urban research projects within the Architecture department of NED University, as well as outside it on the documentation / analysis of multiple urban issues of the mega city of Karachi. She has been faculty at the Architecture and Planning Department at the NED University of Engineering and Technology, Karachi as Assistant Professor since 2007 and has taught design and theory courses in undergraduate and postgraduate programs. She is Editor of the Journal of Research in Architecture and Planning at the Department. She has presented research papers in several national and international Conferences, webinars and seminars and has published in newspapers and research journals.

Design Projects

Participated in Urban Design Competition announced by the Pakistan Railways, on 'Redevelopment of the Cantt Station, Karachi', 2021 with architects Mohammad Ahmed Khan and Dr. Suneela Ahmed.

Participated in art event 'Pursukoon Karachi', with the art project 'Rang De', that aimed to create and spread messages of peace through graffiti and mobile messages on rikshaws (local transport mode).

Along with a handful of dedicated fourth year design students from NED, ticket booths for rikshaws were designed using bamboos and scaffolding as basic local materials and technology put together at very low cost, detailed with rikshaw art.

Participated in International Competition on Urban Regeneration of Aurificia Block in Porto, Portugal as the main coordinator.

The entry was the only one from Asia. Taking on a multidisciplinary approach sought to revitalize a degenerated area through an economic activity addition of urban agriculture, supported by community and cultural activities along with creation of an authentic tourism.

Participated in IAP Design Competition '21 cubic feet', a storage box design of the stated volume, exhibited at the Indus Valley Art Gallery for two weeks. The design storage box was a

multipurpose, semi outdoor studio space for any kind of creative work. It was called 'Pandora Box'. A couple of old wooden window structures were revamped to become openable table and storage space for creative minds.
